## CURRICULUM & STANDARDS

The curriculum of Redbud Farm and Christian School meets the Oklahoma State Department of Education's learning standards, the Oklahoma Academic Standards.

The Oklahoma Academic Standards give specific directions for what a child should learn, not HOW a child should learn the material. At Redbud Farm School, we believe that children learn best in an environment where they FIRST receive social and emotional support, feel safe, and can build trusting relationships with peers and teachers.

Our school day includes a mix of traditional learning inside the classroom, small group learning, and non-traditional learning in our outdoor classrooms.

Although we use several different curriculum packages for individual subjects, each activity is specifically tailored to meet the needs of our students and our nature-based school. The following curriculums are used in our program:

### English Language Arts

Rooted in Reading  
*book centered reading, grammar, and writing*

Haggerty Phonemic Awareness Curriculum

Abeka Phonics

### Math

Saxon Math  
*using hands-on math manipulatives*

### Science

Mystery Science

Growing Up Wild

Project Learning Tree

### Bible

Group Publishing
